PROFESSIONAL SUMMARY

Final-year Computer Science & Engineering student at **American International University – Bangladesh (AIUB)** with a dedicated focus on **Software Quality Assurance (SQA)** and automation. Proficient in **Python, Java, and JavaScript**, leveraging a strong development background to implement robust testing methodologies across the SDLC. Experienced in AI/ML research and data analysis, providing a highly analytical approach to bug tracking, system performance, and software reliability. A proven leader with expertise in team coordination, committed to ensuring the delivery of high-quality, scalable, and user-centric software solutions.

TECHNICAL SKILLS

Programming: Python, Java, C#, PHP, JavaScript (Node.js), SQL

Software & Web: Full-Stack Dev, System Architecture, Agile (Jira, Trello), AWS, UML Modeling

AI & Data: Machine Learning, Data Analysis, Intelligent Systems

Creative & Communication: Digital Marketing, Content Writing, Video Editing

Soft Skills: HR Management, Public Speaking, Team Leadership, Emergency Response

EDUCATION

Bachelor of Science in Computer Science & Engineering

American International University-Bangladesh (AIUB)

Major/Focused Electives: SRE, SDPM, SQT, ML

Expected 2026 | CGPA: 3.1(11th semester)

Higher Secondary Certificate (Science) | 2021

Dhaka City College | GPA: 5.00

PROJECTS & RESEARCH

Intelligent Waste Classification & Smart Management Systems — Lead Researcher | 2025 – Present

Researching AI-driven waste classification and smart urban waste management solutions.

Focused on sustainability, recycling efficiency, and intelligent automation.

Intelligent Analysis of Mental Health Data — Lead Author / Researcher | Ongoing

Developed AI-based framework for early mental health risk identification.

Worked on predictive classification models and research objectives.

Vibe Cloud: Smart Music Streaming System | 2026 | Node.js, MySQL, AWS, Agile

Co-developed event-driven, cloud-hosted audio streaming backend architecture.

Science Learning Platform with AR | 2026 | UML, SRS, ARCore/ARKit, Requirements Eng.

Formulated the complete Software Requirements Specification (SRS) for a cross-platform AR app.

Architected full system blueprints using UML Class, Use Case, and Activity Diagrams.

Online Library System — Full-Stack Developer | 2025 | C#, HTML, CSS, SQL

Developed a web-based library management system; implemented authentication, book tracking, and admin management features.

PUBLICATIONS

Sustainable Business Practices in the Ready-Made Garments Sector of Bangladesh. Paper presented at the 7th International Conference on Integrated Sciences (ICIS), Dhaka, Bangladesh.

Zzoha, S. "Carbon Management System Overview." *Technical Project Report*, American International University-Bangladesh (AIUB). Published on Scribd (2025/2026).

EXTRACURRICULAR

13th National Parliamentary Election — Official Election Observer | 2026

Monitored electoral activities in Dhaka-11 and Dhaka-19 for transparency and compliance.

Professional Certificate in Blood Donation Awareness & Volunteer Training | Bangladesh Thalassemia Foundation (BTF) | May 2025 – Present

Trained in donor screening protocols, blood safety standards, and community health advocacy.

Mental Health Care, Dhaka Branch — HR Lead & Content Creator | 2020 – Present

Managed HR operations and team coordination.

Created awareness and engagement content related to mental health.
